1. The following is an examiner's statement of reasons for allowance: the amendment filed 10/24/2007 has overcome the technical deficiencies and the prior art of record. The prior art of record fails to teach or fairly suggest means for generating a third signal at a first output of the level-q comparator block, indicating that the numbers N and P are equal if the n first signals indicate that the n bits  $N_i$  and the n bits  $P_i$  are equal, and otherwise indicating that the numbers N and P are not equal; and first selective passage means enabling the second output of a basic comparator block to be selectively connected to a second output of the level-1 comparator block, which basic comparator block, from among the basic comparator blocks having a second signal at their second output, processes higher-order bits, with the signal present at the second output of the level-1 comparator block indicating which of the numbers N and P is greater as called for in claims 1, 17 and 18. Therefore, claims 1-18 are presently allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to /Tuan T. Lam/ whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Drew Richard can be reached on 571-272-1736. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
